FIG. 2
Touch Screen Control Panel

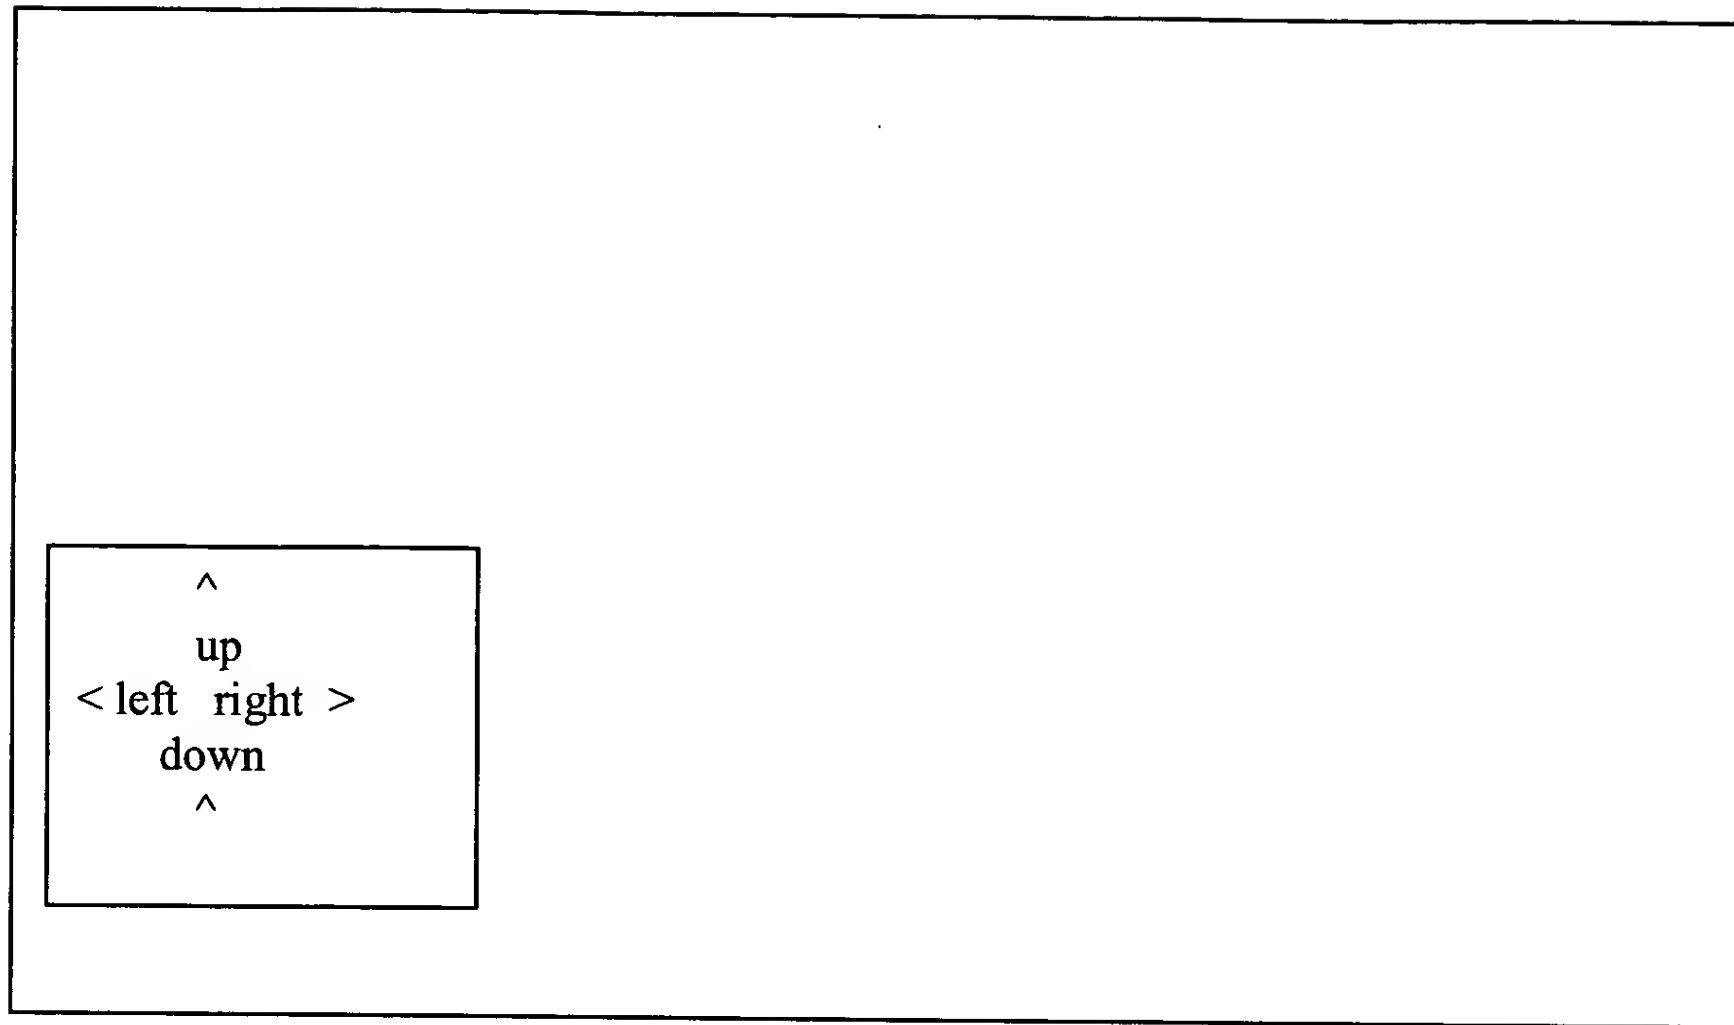

Touch screen control panel

The line in the middle of screen is only visible when the option of split screen is wanted. This provides the driver or passenger the option of two screens for viewing. Let's say for example someone calls and needs to get a phone number and make an appointment. Go to your phone options and scroll up or down to find the phone number and then on the other screen choose the calendar options to find a day.

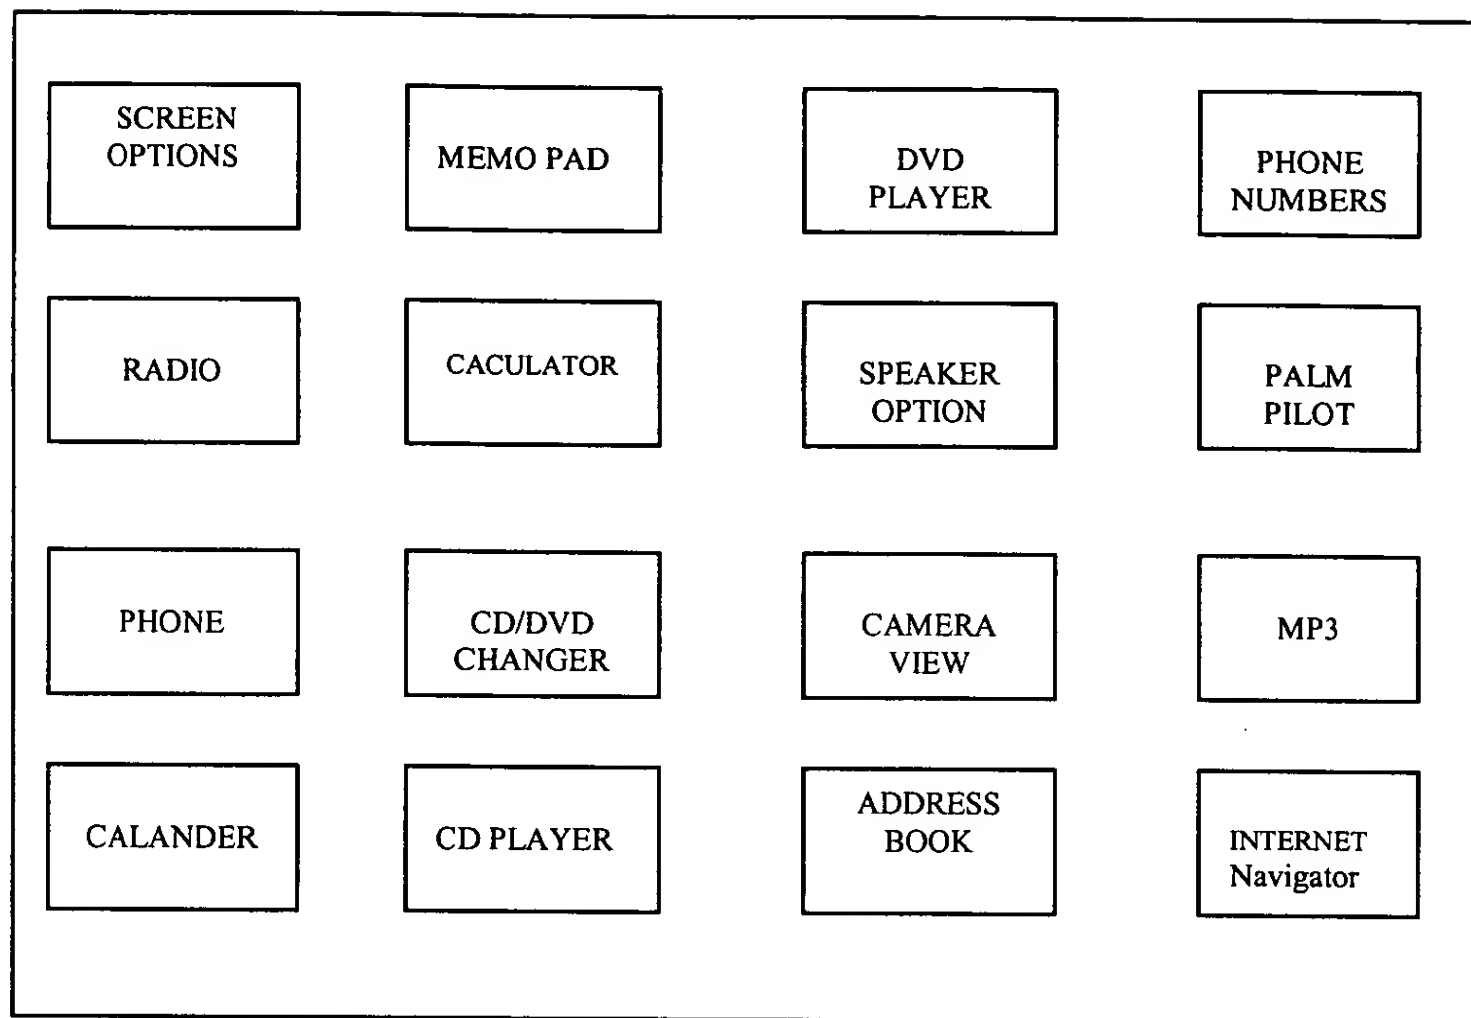

The LCD screen automatically pops up when the key is inside the engine and closes when the key is taken out.
